UNIT A	Looking at Plants and Animals	1
	Reading in Science: <i>How a Seed Grows</i>	2
	Lesson 1: Animal Body Parts.....	3
	Focus On: Health and Safety —Your Body Parts.....	4
	Lesson 2: Animals That Swim and Fly.....	5
	Animals That Walk, Hop, and Crawl.....	6
	Lesson 3: Growing Animals	7
	Lesson 4: Sort Birds.....	8
	Lesson 5: Plant Parts.....	9
	Lesson 6: Plants Grow and Change.....	10
	Plants Grow and Change.....	11
	Lesson 7: Compare Trees	12
	Unit A Review	13

UNIT B	Where Plants and Animals Live	14
	Reading in Science: <i>Each Living Thing</i>	15
	Lesson 1: Living and Nonliving Things.....	16
	Lesson 2: Needs of Living Things.....	17
	Lesson 3: What Animals Eat.....	18
	Lesson 4: Pond Life.....	19
	Hidden Pond Life	20
	Focus On: Biography —Deb Barker, Wildlife Photographer .	21
	Lesson 5: Meadow Life	22
	Hidden Meadow Life	23
	Unit B Review	24

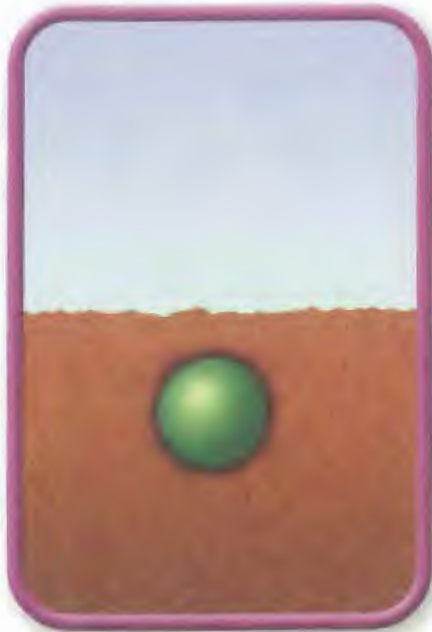

UNIT C	Looking at Earth	25
	Reading in Science:	
	<i>Rocks: Hard, Soft, Smooth, and Rough</i>	26
	Lesson 1: Earth's Materials	27
	Lesson 2: Earth's Land.....	28
	Lesson 3: Earth's Water	29
	Focus On: Literature — <i>Sand in My Shoes</i>	30
	Lesson 4: Changing Land.....	31
	Lesson 5: Saving Earth's Materials	32
	Unit C Review	33

Lesson 6

Plants Grow and Change

Many plants grow from **seeds**.

1 Seeds **sprout** and grow.

2 First, the root grows.

3 The stem grows.

4 Leaves form.

How does a **seed** change as it grows?

Plants Grow and Change

5 The plant keeps growing.

6 Flowers form. **Flowers** make fruit.

7 **Seeds** form in the **fruit**.

8 New plants can grow from the seeds.
